

In My Sketchbook ;

I can practice drawing objects and imaginary images each time I begin a new art and design project.

I can try out design ideas.

I can experiment with different drawing materials, such as pencil, crayon, charcoal, pastels.

I can collect images from magazines or computers which help me learn about the topic I am interested in.

I can make notes to help me with my drawings and paintings, and about art I like.

You can take your sketchbook home every holiday and use it to record things you see which interest you.
